# THE COMMUNION FOREST

Renewing the life of the earth across the Anglican Communion

A shared commitment to the Anglican 5<sup>th</sup> Mark of Mission "To strive to safeguard the integrity of creation, and sustain and renew the life of the earth."

# What is the Communion Forest?

Is a **global** initiative comprising **local** activities of forest protection, tree growing and eco-system restoration undertaken by Provinces, Dioceses and individual churches across the Anglican Communion to **safeguard creation**.

- ★ **To plant is to hope**
- ★ **To restore is to heal**
- ★ **To protect is to love**

# Aspects

1. **Practical** – increase the number of diverse and locally-appropriate creation care initiatives across the Anglican Communion.
1. **Spiritual** – Communion Forest activities to be woven into the spiritual and liturgical life of the Church, helping people better connect their faith with the natural world, repairing an often-broken relationship.
1. **Connection** – doing something *together* as the faith community– sharing knowledge and experiences, seeing our diverse activities contributing to the whole.

## Action taken can;

- ✓ Help to protect habitats and biodiversity
- ✓ Provide food
- ✓ Green spaces
- ✓ Prevent erosion, environmental destruction
- ✓ Reduce pollution
- ✓ Contribute to peace building

## BE PART OF SOMETHING BIG

*Don't be left out, all individuals and institutions  
are welcome to register!*

Children are the least responsible for climate change, yet they will bear the greatest burden of its impact.

UNICEF approximates that there are 650 Million people in Africa who are 17 years and younger

Africa Climate Warriors is a network of individuals working with children, teens and youth in learning institutions to drive climate actions and advocacy in their learning institutions and communities.

*Without action now, climate change will exacerbate the inequalities that children already face, and future generations will suffer- UNICEF*

Africa Climate Warriors objective is to Support Innovative educational approaches with learning institutions to provide an audience that will understand, address, mitigate, and adapt to the impacts of climate change, in order to put Africa on a more sustainable development path and build a generation that is climate aware with a strengthened capacity for appropriate advocacy and campaign response strategy.

## Expected Outcomes

Facilitate Climate Action that allows the youth to take actions in different areas that will tackle climate change and benefit the entire planet locally.

Food and Farming

Energy and technology

Oceans

Land

Health and Happiness
